

## Memorandum

---

**To:** Provosts and Chief Academic Officers

**From:** Dr. Paula Compton, Associate Vice Chancellor for Articulation and Transfer

**Date:** April 7, 2020

**Subject:** Articulation and Transfer Policy Updates due to COVID-19

---

With all the challenges we have been facing with the coronavirus' impact on education, we have been getting many questions about our transfer policies. It is a very fluid situation, as you know—as one decision is made, it influences another. As of today, the Chancellor has approved the following three temporary changes to Articulation and Transfer policy; these changes were developed after consultation with the Ohio Articulation and Transfer Network Oversight Board and other stakeholders:

### **The Acceptance of FY20 Spring AP Exam Scores for College Credit**

The College Board recognized that high schools were closing and teaching and learning options for AP courses varied across the country. The College Board also needed to close its own testing sites across the country. These necessary changes impacted the ability of students to complete their Spring AP coursework and take AP Exams. The College Board quickly responded. First, they are offering free on-line instruction that AP students can access. Second, they adjusted the content of the AP exam so that only content taught through March would be tested. Third, they found a way for the FY20 Spring AP exams to be taken remotely. These decisions were made in consultation with their stakeholders, including secondary and higher educational faculty, administrators, and counselors.

The OATN recognizes the need for these changes and the need to hold students harmless in light of these changes. ***Consequently, it is OATN policy that the FY 20 Spring AP Exam scores will be accepted for college credit, using the same guarantees that exist in current policy.***

## **Virtual Labs Meet Natural Science Ohio Transfer Module (OTM) and Transfer Assurance Guide (TAG) Requirement for Spring FY20 and Summer FY21 Terms**

The Ohio Department of Higher Education recognizes that faculty in the discipline and their institutional leaders are in the best position to understand the unique needs of their students and the disruptions that have occurred to coursework, including natural science laboratory courses.

The OATN understands that faculty members are, as they believe appropriate, providing alternative learning experiences, including virtual experiences, to allow students to achieve the required outcomes of the laboratory experiences. ***Consequently, the OATN is temporarily suspending its policy prohibiting virtual natural science laboratory experiences; virtual laboratory experiences will meet the natural science OTM/TAG lab requirement for Spring FY20 and Summer FY21 Terms.***

## **Pass/Fail Grades Accepted for OTM and Transfer Assurance Guide (TAG) Courses for FY20 Spring Term**

Ohio's Articulation and Transfer Policy currently states that students will receive college credit for Pass/Fail grades in most situations; exceptions exist for accreditation requirements or when native students are required to earn a C grade. Due to COVID-19, many of Ohio's colleges and universities are offering students the option to receive Pass/Fail (or credit/no credit) on their transcript in lieu of a letter grade. In order to provide students with certainty in the transfer process, ***students who receive Pass (or credit) for a course taken during the Spring FY20 and Summer FY21 terms will be guaranteed to receive transfer credit and have that credit applied as if it were a letter grade according to current OATN policy.***

The Ohio Department of Higher Education truly appreciates everyone's flexibility and trust as we work hard together for our students. If you have any questions please contact me at [pcompton@highered.ohio.gov](mailto:pcompton@highered.ohio.gov) or 740.852.0326.
